About 1G4 - Grand Canyon West

The Real One

Welcome to Grand Canyon!

Grand Canyon West Airport is the perfect home base for scenic flights over the **Grand Canyon**! In addition to it's perfect location along the **west rim**, Grand Canyon West also sits just two miles from the world famous **Grand Canyon Skywalk**, three miles from the old **Guano Point tramway,** and two miles from the scenic, classic **cabins at Grand Canyon West**!

The Grand Canyon Skywalk is located just two miles from Grand Canyon West airport and is world famous for it's glass bridge that extends nearly **70 feet** over the Grand Canyon. In addition, there are also several Native American structures as well as an outdoor amphitheater, restaurant and gift shop located by the skywalk.

Guano Point, which is located just three miles from the airport, is well known for it's old abandoned tramway that was once used for reaching a **guano mine on the canyon floor.**

Just two miles from the airport in the opposite direction is a beautiful set of cabins and replica of an **old western town** at the Cabins at Grand Canyon West.

All three of these local landmarks are faithfully represented in this scenery for an exciting, authentic experience of **Grand Canyon West**!
